1954's Memorable Quote — Frank (Pappy) Noel, AP photographer and released prisoner of war, speaking of the 21 Americans who want to stay with the Reds:

"There are 30,000 dead men in Korea. Those 21 men still over there are expendable — I couldn't care less about what happens to them."

Fascinating Fashion Fact — From the Wall Street Journal of January 19:

"Hemlines will rise an inch, necklines will decline an inch. Ladies' shirts and skirts will appear in such 'new' colors as Wild Shrimp, Coolie Blue, El Dorado, Gold, and Popsicle Green."

Trade Humor

A newspaper got a call from a man's wife who wanted her spouse's name to be put in the obituary column because she had heard he had killed his secretary under the mistletoe.

"How long has he been dead?" she was asked.

"He starts tomorrow," was the answer.

Local Story

Roy Anderson tells one about Spring Hill — It's not libelous when Roy locates it in Spring Hill because he's a Spring Hill native, too.

Anyway, there was this rough, tough character from Spring Hill, back in National Prohibition days, and he came up to Hope one fine morning with a shotgun in one hand and a jug of corn whiskey in the other.

Stopping a Hope man on the street he said, "Have a drink out of my jug."

"No thanks," said the Hope man. "Showing his shotgun in the local citizen's ribs the Spring Hill visitor announced, 'I said, Have a drink out of my jug.'"

So the Hope man had a drink, and shook and shuddered.

"Now," said the Spring Hill man, "it's your turn to hold the gun on me while I take a drink."

Reaction to Health Plan Is Mixed

WASHINGTON, (UP)—President Eisenhower's health proposals touched off brisk discussion in Congress today over how far the government should go to help Americans get and pay for better medical care.

Sen. Herbert H. Lehman (D-N.Y.) said the President's plan for underwriting private health insurance programs is "wholly inadequate" because it helps only when illness has struck a crushing blow.

"For many families," he said, "the net is not so much for protection against the cost of catastrophic illness as for ordinary routine medical care at a cost which they reasonably can afford."

But Rep. John B. Bennett (R-Mich.) disagreed.

"The biggest need for government assistance is for the extraordinary expenses," he said.

"When the government finances ordinary costs and care it gets into deep water on costs and socialism."

In submitting his health program to Congress yesterday, Mr. Eisenhower proposed a \$25,000,000 government more and better health protection for Americans by guaranteeing benefits under private medical insurance plans.

200 MPs Added to Force in Berlin

BERLIN, (UP) — The U.S. army has added a company of 200 military policemen to its Berlin garrison in preparation for the Big Four foreign ministers conference starting next Monday. A spokesman said today.

The new arrivals include criminal investigation detachments and agents and bring the U.S. military police force in the city to 500.

The CID men are plainclothes operatives and will be used to guard top members of the American delegation.

The uniformed MPs will be used to control traffic and to help guard the allied control authority building in the American sector.

It will be in the 500-room ACA building that the foreign ministers of the United States, Britain, France and Soviet Russia will hold their first week's meetings.

Sessions will shift to the sprawling Soviet Embassy in East Berlin during the second week, and then return to the ACA building for the third week.

Farmers Agree With Ike's Fundamentals

LITTLE ROCK, (UP) — An official of the Arkansas Farm Bureau Federation says that organization can find "fundamental" agreement with President Eisenhower's proposed farm program.

Fifteen members of the federation's 19-man Board of Directors decided here yesterday that the President's proposal for flexible price supports on basic commodities has "much in common" with the program they've been advocating for years.

Waldo Frasier, executive secretary of the federation, said the board is concerned lest Congress vote a national cotton acreage allotment of 2 1/2 million acres as urged by southern congressmen.

Driver of Bloody Auto Identified

CONWAY, (UP) —

Faulkner county officers said the driver of a blood-soaked automobile was identified definitely today as George C. (Mike) Heath, a Wichita, Kas., man who was fired recently from his foreman's job at an aircraft plant.

Sheriff Joe Castleberry said Heath is wanted in two states on hot check charges, but that he is not wanted for questioning in the torture murder of a California woman in an Oklahoma City tourist cabin last January.

Chinese Insist They Won't Take Back Prisoners

PANMUNJOM, (UP) —

The Communists told the Indian command tonight they would not take back 349 pro-Red prisoners—including 21 Americans—scheduled for return tomorrow.

The Indians said they would go ahead with the transfer of 22,039 anti-Communist Koreans and Chinese back to U. N. custody.

The Communists nine-page letter to the Indian command angrily opposed the decision to return all unrepatriated war prisoners to their captors starting tomorrow.

An Indian spokesman said the Reds said they would not accept the captives. He did not elaborate.

The Communists accused the Indians of violating the armistice and added:

"We cannot concur in such interpretation and decision. We consider that each prisoners of war has full right to refuse to be forcibly restored to the former detaining side and to demand to attend further explanations. It is not for anybody to deprive them of this right and especially to deprive them of this proper right by force."

The U. N. Command notified the Indians that it will honor its obligations and demand anti-Red prisoners civilians at midnight Friday.

A letter to the Indian command said the Allies "will be prepared to process and dispose of the prisoners of war now in custody of the Neutral Nations Repatriation Commission whether they leave the demilitarized zone on 20 January or immediately following termination of neutral custody at midnight Friday."

The Reds insisted that the Indians withdraw their decision to return the prisoners and "actually shoulder the duties and obligations" of the armistice by continuing to hold the prisoners and resuming explanations.

Contents of the Communist letter were broadcast by Red China's Peiping radio.

The Red reply flatly rejected the Indian view that although certain aspects of the armistice have not been fulfilled, Indian custodian troops could neither hold the prisoners nor retain them, but could only return them to their captors.

The U. N. told the Indians Saturday that the would accept anti-Red prisoners.

The Communists rejected any proposal which would transfer the prisoners from Indian custody before (1) they receive explanations and (2) a Korean peace conference discusses their fate.

Mudslides Threaten Town in California

SIERRA MADRE, Calif. (UP)—

police reported today the entire population of this hillside city was evacuating as hip-deep mud and silt from fire denuded mountain slopes threatened to swamp the community.

Sierra Madre police said the evacuation was on a voluntary basis and was assisted by Red Cross detachments, police and units of the National Guard.

"In some spots on the northern perimeter of the city the mud is hip-deep," a desk sergeant said.

The mud started to move in on the city late last night from the slopes of the Sierra Madre mountains where a recent forest fire burned off brush and timber.

The area has been pelted by a rain and snow storm for three days.

"There is nothing to stop it," the sergeant said. "The mud and muck is rolling in off the bare mountains fast."

He said the black silt was moving southward on a mile and a half wide.

"It's clear down to Arcadia," four miles to the south, he said.

In Sierra Madre is 15 miles north west of Los Angeles.

Disposal of Farm Products Is Rapped

WASHINGTON, (UP)—

Administration plans to dispose of a billion dollars worth of government-held farm products overseas drew sharp criticism at a Senate hearing today.

Sen. Schoeppel (R-Kan.) told Secretary of Agriculture Benson that the proposal would disrupt world markets that already are nervous about what this country is going to do with its farm surpluses.

Secretary Benson, up for a second day of critical questioning, told the crowded Senate Agriculture Committee hearing that it would not planned to give the entire billion dollars worth away.

"A good part of it should be sold," Benson said, adding that the administration hoped to find new markets overseas.

Layoffs Exaggerated Says Henry Ford

PHILADELPHIA (AP) — Reports of unemployment in Detroit as a result of layoffs in the automotive industry are greatly exaggerated, says Ford Motor Co. President Henry Ford II.
The 36-year-old executive said here yesterday he expects his company to have "a good year in 1954 and he said "I hope it will be better" than last year.
Ford said his company is currently turning out 6,400 passenger cars a day, with this rate of production scheduled for the first five months of this year.
"To turn out this volume, he said, the company is operating at 9½ hours a day, six days a week. He said Ford could cut production "drastically, to our way of thinking," and still not lay off a single person. In such event, Ford said, the company would merely climate overtime.

Seven Persons Die in Crash

AZUSA, Calif. (AP) — Seven persons were killed and three critically injured yesterday when a car carrying six young people collided with an oncoming car on U.S. Highway 36 just east of here.
Deputies said the car carrying four girls and two boys returning from a high school dance apparently crossed the center line at high speed, overturned and struck an oncoming car, killing that driver.

British Air Official to Probe Crash

ROME (AP) — British Civil Aviation Minister Alan Lennox-Boyd arrived here early today and went immediately to the island of Elba for a personal investigation of the crash Jan. 10 of the British Comet jetliner.

Lennox-Boyd also was to attend the funeral services there today for 10 of the 35 persons who died in the crash of the big airliner into the Tyrrhenian Sea off the West Italian coast.
In a second ceremony today, flowers were to be dropped on the sea where the plane plunged between Elba and the island of Montecristo.

The British admiralty announced yesterday four warships would try to raise the British Overseas Airways (BOAC) plane in an effort to determine the cause of the crash.
Adm. Lord Mountbatten, British commander in chief in the Mediterranean, will supervise the salvage attempt.

A fishing boat at the crash scene yesterday fished up a piece of the plane wreckage in its nets. With it were five checks of \$20 each made out to one of the crash victims, Mrs. Dorothy Beecher Baker, of Lima, Ohio.

BOAC meanwhile sent special security investors to Beirut, Lebanon; Karachi, Pakistan; Bangkok, Thailand, and Singapore—the points where the plane landed en route to Rome.

BOAC said the possibility of sabotage "cannot be overlooked and that careful examination of its Comets, grounded after the disaster off Elba, had produced no evidence of structural weakness.

and late—and always as fresh as a daisy."
Green, who recently returned countries, likes to eat native dishes wherever he goes.

"I love to meet people and get to know them," he said, "and the best way to get people to accept you as one of them is to follow their customs."

The senator, who began his career here in his 70th year, rarely makes speeches, but is meticulously busy in committee activities, where the real work of Congress is done.

"The Senate is his life," said Sen. Lyndon, Johnson of Texas, Democratic leader. "He is one of the wisest men here, but very firm of principle. When it is time for a position to be taken, you won't find Sen. Green heading for the door. And you even have Wayt trouble locating him if a close vote is coming up."

"He is younger than many a man of 60."

Green feels that one way to retain a youthful outlook is to have both an indoor hobby and an outdoor hobby.

"My present indoor hobby—my latest and last love—is Chinese paintings," he said. "But I have collected things all my life, from stamps and shells and seashells to etchings and books on Rhode Island history."

Interesting items in his past collections: A piece of the Atlantic cable, a bottle of water from the River Jordan, and a glove he wore "Unfortunately, I shook hands with President Rutherford B. Hayes."

"Unfortunately, I shook hands with Hayes with my right and but found later I had saved the left hand glove," he said. "It seemed quite a tragedy to me when I first discovered my mistake—but I have gotten over it."

President Hayes died in 1893. Sen. Green, who once taught Roman law at Brown University, has a long view of history and is optimistic about the future.

"There is a threat to the world in the conflict between liberal and reactionary forces," he said, "but I think the liberal forces will prevail."

banks. It instructed the elder Moskowitz to insert this ad:

"I ready to conclude sale. Please advise when and where to deliver." With the family unable to raise any sizeable sum Sunday, Inspector James English placed this ad in the Monday morning Examiner: "I unable to raise sale price. Wish to negotiate. Please contact us."

The second note, delivered at 9:50 p. m. Sunday, read: "... It's Sunday morning and I am well and alive. But please hurry for they are afraid you may try to cross them by taking the numbers off the bills. If the police... try in any way to trap them, they will kill me. ..."

"Nothing reported to the papers, for which I thank God. ... Tell Leesly to have faith. ..."

Inspector English said the next telephone call was received at the Moskowitz home at 12:25 p. m. Monday. Besides reducing the ransom demand to \$300,000, the caller told Moskowitz to place the original ad in the paper when the money was ready.

The third note, delivered Monday, read:

"... It looks bad for me. They are really mad because your ad in this morning's Examiner said you did not have the money. ... They are willing to lump me loose for \$300,000, but not a penny less. ... Please for God's sake don't try to bargain. I swear to God they mean business. ..."

Moskowitz wrote his captors had threatened to castrate him and sent the evidence to his family "if there is any further stalling."

Following instructions again, in some ways under a Democracy as under another form of government, but the people are happier. And that's the test. The world is progressing. It is a wonderful thing merely to be alive in it and to have a chance to help make it better."

The senator takes with wry aplomb his reputation of still being one of the capital's most eligible bachelors.

"Is it because of my sweet disposition," he asked with a grin, "or because I could pay a wife's bills?"

British Looking to Nuclear Power

LONDON (AP) — A British government report says that within 20 years nuclear energy may provide about a fourth of Britain's estimated power needs.

The 100-page report, entitled "Britain's Atom Factories" was made public yesterday. It was written by Kenneth Jay, 44, principal scientific officer at the big Harwell atom research plant.

Jay said nuclear fuel might be developed in the next two decades to produce as much electricity as 20 million tons of coal. This is the amount by which Britain's coal production is expected to fall short of the country's needs.

Certain assumptions turn out to be valid, Jay added, "it might ultimately be possible completely to replace coal by nuclear fuel for the generation of electrical power in the United Kingdom."

British Supply Minister Duncan Sandys said in a foreword to Jay's report that Britain had moved in the past year from the purely research stage into regular atomic energy production.

spector English placed the original ad in the Tuesday Examiner, on sale Monday night.

Police were assisted by FBI agents as observers, rather than participants. Regulations preclude the FBI from coming officially into a case until seven days after a kidnapping, or until there are indications the kidnapers crossed state lines.

Leonard and his brother operated the Moskowitz Realty Co., a real estate and insurance firm. Their lives have been closely linked, even to enlisting in the Air Force together and marrying on the same day. They live in adjoining homes.

Their father is a personal friend of San Francisco Mayor Elmer Robinson.

The last kidnapping for ransom in the San Francisco area was in 1940, when 3-year-old Marc de Tristano Jr., was abducted from his home in exclusive suburban Hillsborough. The kidnaper demanded and was paid \$20,000 by the boy's father, Count Marc de Tristano.

The boy was returned unharmed. The kidnaper was caught a short time later and is serving a prison term.

Missourian Calls 15c Coffee Outrage

WASHINGTON (AP) — The Eisenhower administration had this advice today from a Democratic congresswoman from Missouri:

Forget a "minutes about the big Four atoms, deficits and the budget. But for goodness' sake, let's get something about the 15-cent cup of coffee."

To Mrs. Leonor Kretzer Sullivan, styling herself a typical "harrassed housewife," the implication was clear: Democrats may get an issue that will push the old middle class into the background.

Mrs. Sullivan, an attractive brunette, said rising coffee prices are making coffee a luxury beyond the reach of the man in the street or the woman in the kitchen, and "that's almost un-American."

She said profiteering and speculation have caused the price of a cup of coffee to jump to 15 cents in St. Louis and other cities, and the price of a pound to climb to \$1.10 and higher.

"If this gouging were occurring in copper or manganese," she said in a flippant speech yesterday, "I'm sure the government would be showing some interest and some concern, and undoubtedly getting some helpful results."

Schlundt May Run Out of Records

By BEN PHLEGAR

NEW YORK (AP) — At his press conference, the big Don Schlundt is going to run out of records to break long before he finishes his spectacular basketball career at Indiana University.

The 6-foot-9 center, just approaching the midway point in his junior year, already owns the individual scoring records for many of the Midwest's main basketball arenas. Last night he added two more prizes to his long string: the Big Ten mark and the record for his home floor at Bloomington.

Shooting with amazing accuracy, he scored 47 points as the hurrying Hoosiers marched away from Ohio State 74-72 for their sixth straight conference triumph.

The old Big Ten mark of 43 by Iowa's Dick Loe had stood for 10 years. Schlundt's total was 11 above the former Indiana field house mark as he connected on 16 field goals in 27 attempts and on 15 of 17 free throws.

Indiana, No. 3 behind Kentucky and Duquesne was the only member of the nation's top 10 teams in action last night. Three of the second 10 were busy with Maryland, No. 14, whipping Virginia 70-56; Kansas, No. 17, defeating Iowa State 76-61; and Illinois, No. 20, getting beaten by Iowa 79-70.

Wisconsin made 25 of 30 free throw shots in defeating Michigan State 57-53 in a Big Ten game. Two foul shots by sub Bobby Deloit with seven seconds left gave Tulane a 63-61 Southeastern Conference decision over Tennessee. Davidson surprised Virginia Tech with a second-half splurge that brought an 87-69 Southern Conference victory.

Tulane's triumph over Tennessee put the Green Wave in third place in the Southeastern behind Louisiana State and Kentucky as Vanderbilt stumbled before Mississippi 78-74.

Rice moved back into contention in the Southwest Conference by beating Arkansas 80-55, and Texas Christian defeated Baylor 73-60.

Bradley rolled over Houston 89-71. Seton Hall made the poorest defensive showing of its basketball history in bowing to John Carroll 84-85.

Reds Who Heckled Marshall Fined

OSLO, Norway (AP) — Three young Reds who interrupted the awarding of the 1953 Nobel Peace Prize to Gen. George C. Marshall last month have been fined a total of 800 kroner (\$112).

Oslo radio said the Communist demonstrators were found guilty yesterday of defaming Marshall and attempting to break up a public meeting. The two older Reds were fined 300 kroner each. Their companion, 18, was fined 200 kroner.

During formal presentation ceremonies at Oslo University 20 Communist students against Marshall and showered the audience with leaflets before the police could hustle them out.

Adonis Closer to Deportation

HACKENSACK, N. J. (AP) — Joe Adonis, former kingly gambler, was another step closer to deportation today after being found guilty of lying when he told a Bergen County grand jury he was born in Passaic, N. J.

Superior Court Judge Lester Drenk decided yesterday that Adonis, whose real name is Joseph Doto, knew his Passaic birth certificate was fraudulent when he appeared before the grand jury.

The state contended that Adonis was born in Montemprano, Italy. So did the U. S. government in issuing a deportation order against him last summer.

Sentencing on yesterday's conviction is set for Feb. 2. He faces a possible maximum sentence of three years in jail and a \$10,000 fine.

Reds Who Heckled Marshall Fined

OSLO, Norway (AP) — Three young Reds who interrupted the awarding of the 1953 Nobel Peace Prize to Gen. George C. Marshall last month have been fined a total of 800 kroner (\$112).

Oslo radio said the Communist demonstrators were found guilty yesterday of defaming Marshall and attempting to break up a public meeting. The two older Reds were fined 300 kroner each. Their companion, 18, was fined 200 kroner.

During formal presentation ceremonies at Oslo University 20 Communist students against Marshall and showered the audience with leaflets before the police could hustle them out.

Hunters Propose Shorter Season, Special License

LITTLE ROCK (AP) — Special license and shorter hunting seasons were suggested yesterday as possible solutions to the quail shortage in most sections of Arkansas.

The suggestions were made by hunters themselves as they appeared at the annual public hearing of the Arkansas Fish and Game Commission here. About 150 persons attended the open meeting.

Hunters suggested that proceeds from the proposed special license be used exclusively for restocking and a stepped-up program to provide more feed and cover for quail.

Continued shortening of the quail hunting season also was suggested, or the alternative of permitting quail hunting only three days each week the season was open.

Hunters agreed that the quail shortage existed in most sections of the state. However, several persons from eastern Arkansas claimed there still is plenty of quail in their areas, and recommended the season and bag limits remain unchanged.

Reduction of the quail population caused the commission to cut three weeks off the customary hunting period. Commission Executive Secretary T. A. McAmis said that approximately 60,000 was spent year on quail restoration.

Hunters interested in deer hunting said they were satisfied with present regulations and opposed the killing of does. Doe-killing has been suggested as a move to repopulate the number of deer in overpopulated areas.

McAmis said a record 237,078 resident hunting licenses and 7,063 non-resident license — also a record — were sold last year.
